

EXPERIENCE

- Full Stack Developer Intern

SUNTEK AI

Jan 2026 - Present

Remote

Led the end-to-end revamp of a **revenue-generating** production timesheet system used by **50+ employees**, rebuilding the full stack with Next.js, TypeScript, Clerk, Prisma/Drizzle, and PostgreSQL while owning authentication, frontend, backend, and database architecture

Migrated **20,000+ legacy records** to a new PostgreSQL schema with **zero data loss**, introduced collaboration features, and improved UX reducing employee time-entry effort by **40%**

Built a **client-facing image processing tool** enabling bulk ZIP uploads integrated with **Google Cloud** and extended **Shopify workflows** to surface draft orders directly in the UI, improving operational efficiency and delivering ahead of schedule
- Full Stack Developer Trainee

DEVSLANE

Jun 2024 - Sep 2024

Remote

Selected among **10 on-campus candidates** for a competitive trainee program, contributing to building scalable full stack applications with React, TypeScript, Node.js, Redux, and RESTful APIs

Delivered **2 major and 5 minor** full-stack projects including a scalable e-commerce platform with secure authentication and RESTful API integrations

Collaborated with a **10 member** engineering cohort, performed **35+ code reviews** and delivered production-ready code contributions

PERSONAL PROJECTS

- Finuera - AI Finance Assistance Platform

Next.js, AuthJS, LLM, Shadcn UI, TypeScript

Live Demo | Github

Integrated an AI finance chatbot using Google Gemini 2.5 and Vercel AI SDK, delivering **sub-2s responses** across **500+ finance interactions**

Engineered structured prompt workflows for financial document analysis (CSV, PDF, images) generating insights in **under 5 seconds per upload**
- EzShiksha - Smart Learning Platform

MERN, Python, FastAPI, OCR, NLP, Docker

Live Demo | Github

Built an AI-powered learning platform with OCR-based text extraction and NLP modules using a fine-tuned T5-small model trained on **2,000 custom notes**

Dockerized the application and Tesseract OCR, reducing deployment time by **40%**
- DashCart - E-Commerce Platform with Admin Dashboard

TypeScript, Stripe, Firebase, React, Redux Toolkit, MongoDB

Live Demo | Github

Designed a scalable admin dashboard enabling management of **100+ users, products, and orders**

Integrated Firebase authentication, Stripe payments, and Cloudinary media storage for secure end-to-end workflows

TECHNICAL SKILLS

Languages: TypeScript/JavaScript | C++ | Python

Frontend: Next.js | React.js | Tailwind CSS | Shadcn UI | Redux Toolkit | Zustand

Backend & Databases: Node.js | Express.js | Prisma | Drizzle | PostgreSQL | MongoDB

AI/ML: Machine Learning | Deep Learning | LLMs | NLP

DevOps & Tools: Git | GitHub | Docker | Postman | Vercel | Render

CS Fundamentals: Data Structures and Algorithms (LeetCode, GeeksforGeeks)

EDUCATION

- Bachelor of Technology in Computer Science and Engineering

Bennett University, Greater Noida

2022 - 2026

CGPA: 8.46
- Grade X | XII

Father Agnel School, Noida

2019 - 2021

90.2% | 88.2%

ACHIEVEMENTS

Top 10 – SIH 2024 (University Round) | 2nd Place – ACM Research Hackathon | Research Paper Accepted – Unpaired Image-to-Image Translation with CycleGAN: An Expanded Review | 9.79 SGPA (2nd Semester)
